A heavenly coincidence or just intuition
Maybe stars went inline and the moon
Smiled upon us

Your inner touch of grace
The magic behind those eyes
Like every turning page
Revealing it's truth in disguise

'Cause every single time we touch
And every single breath's
Contagious
And every moment spent with you
You know I can't resist
Contagious
Oh you are

This wicked heart of mine
Preparing for the fall
Or maybe our sins
Could save us afterall

It's funny how sometimes
It all goes this way
That when you've reached the end
It all starts again

Every word that I wrote
Will be torn out and thrown into the fire
Come with me
Come alone
And it takes us higher
