

Feiled "Dive"

Visit "[Dive](#)" on MotoLyrics.com

I let this feeling

Overtake me

I give it full control

And hope

If floating through my veins

I let it go into my soul

And I want to be

Where you are

And only to be

Safe from harm

And safe from this all

Come on baby

Let me dive in this love

Into your arms

To dive in this love

And I am gone

Tempting seems your entrance

That offers me this grace

Still it tears my heart apart

And I can't sacrifice it all
