Memories

Can't fall a sleep

You and me

We're tied but free

And time can't alleviate the pain I feel

It's like heaven's falling down

Hearts are cying loud

Heaven's falling down

When you are around

Eyes so could

They freeze the soul

Still love

It's trying to break free

Hate so deep

It makes me weep

This feeling growe inside of me

I ain't still free

It's like heaven's falling down

Hearts are crying loud

Heaven's falling down

When you are around

It's like heaven is falling down

Hearts are crying loud

Stars come crashing down

When you are around

As I sing this song

I hope someday

You could hear it too

And know what I've been through
