

Feiled "Release Me"

Visit "[Release Me](#)" on MotoLyrics.com

Only shattered pieces of what's left
We're walking blindfolded
Never asking
Never feeling
Never questioning why

And I've seen this world
That envies love
And there's no more room
To breathe at all

This air is suffocating me
Release yourself
Release me
These boundaries
We can't break free
Release yourself
Release me

We are prisoners
In our selfmade chambers
From crimes we can't deny
And the shame
We are all covered in
'Till the day when we die

What is truth
What is love
What is happiness
If we can't change
The way we are
