You, soft and lovely are
Lighting my dreams
Like a morning star
Rocking my world
With your open arms

I could not feel the sun
Looking for something
So high above
Guess you could say
I was blind to love

(CHORUS)

Hey, only a lonely heart sees
Where love can be
Hey, only a lonely heart sees
Where love can be
Where love can be

You, magic in your eyes
Peaceful and clear
As a summer sky
Showed me the truth
Behind love's disguise

I could not hear a sound
Pure as the melodies ever sung
Two strings together
That makes us one

(CHORUS) 2X

Hey, hey, hey
Where love can be

You, breezing through my mind
Oh, no, my lady, I can't deny
You know the way to paradise

Oh, could this be blown apart
Standing alone in the pouring rain
Running from love

When it brings you pain

(CHORUS) to fade
