And I was woken by the thought in my head  
"Time to see the world  
And get up out of this bed."  
With feet to walk with and a little time to kill  
I grab my guitar so I can go and chill  
At Box Hill, Cardish, I will, won't stop till I fall asleep  
I'll take my time and relax in the sun  
Because I heard time flies when you're havin' fun.

And I've no idea where that day gone when  
Yet I know that it's time well spent  
And I've no idea where that day gone when  
Yet I know that it's time well spent  
Yeah...

And I remember sharing lips with her  
The coming weeks were to be a blur  
'Cause time with her is like no other  
She can make a winter's day feel like the summer  
And it's oh so nice to have her alone  
'Cause you know I made her leave her mobile phone at  
home  
The clocks ticking but I don't mind  
Because there's no one else I'd rather share my time  
And I've no idea where those weeks gone when  
Yet I know that it's time well spent  
And I've no idea where those weeks gone when  
Yet I know that it's time well spent  
So I'll singÂ...  
Mmm.

Reminded of the time in 1999  
I started a brand new school  
Behaved, I'd be lying  
'cause you'll be finding me 'round the back of that  
sport school  
Takin' teachers through the bends with a little set of  
friends  
Yeah, we're about as focused as a broken camera lens.  
My first fight, my first fall for a girl.  
You know, I wouldn't swap those two years for the  
world.

And I've no idea where those years gone when  
Yet I know that it's time well spent  
And I've no idea where those years gone when  
Yet I know that it's time well spent  
So I singÂ...  
Mmm.
