I tell the truth even when I lie  
Take a deep look in my eyes  
All you know and see is fine  
Let's wake up the world, let's ride, dale

Wake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel alive

Wake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel alive

I'm so 3000 and great, they're so 2000 and hate  
They want me to fall and fail  
Hurry up and wait, i'm a pyscho on a beat  
Norman bates, i'm on that bally, as well, as the fire  
great legs, break  
Five, six, seven, eight, i'm some like a pimp, when I put  
my words on a track, slap  
Hussle, hussle, hard, grind, i'm known for that, slap  
Hussle, business, manager, and now he's a business  
man  
That chico got more flips than gymnist man  
Who is the man? chip chip bang

Wake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel alive

Wake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel alive

Let's get it like it, automatic  
Space invader, dancfloor operator  
Supersonic, elevator, next level, upgrader  
Take you higher, margin later, right now not later

I feel alive baby, I feel alive in this club  
I feel alive baby, I feel alive in this club  
I feel alive baby, I feel alive in this club

I feel alive, feel alive

Wake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel alive

Wake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel alive

I be going faster, and faster  
Better make it last, make it last yeah  
I be going faster, and faster  
Better make it last, make it last now baby

Wake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel alive

Wake me up in the morning  
Slow me down in the evening  
Get me whatever you want to make me feel alive

I feel alive baby  
I feel alive baby  
I feel alive baby now I feel great

[beat outro]
