I'll try anything that's new if something old won't do  
If I can make you happy when you're feeling blue  
Cause I love you yes I love you all of the time  
I love every breath you take I love the love you make  
I love the way you walk even when you walk away  
Cause I want you yes I want you all of the time  
But don't go too far when you walk away cause I want  
you near near me night and day  
I can't do without things you do for me in your own  
sweet loveable way  
I love everything you do and everything you say

I love you most of all cause you always go my way  
When I need you and I need you all of the time  
But don't go too far...
