(Cindy Walker)

Always darling, in all ways
I belong to you and just to you alone
Always, for all of my days
I will love you till the breath in my body is gone.

So don't ever doubt me for there never could be
Anyone in this world who could take your place with me
I'll love you always darling, in all ways
Till my heart is true that's how it will always be.

--- Instrumental ---

Always darling, in all ways love me too
The way that I will always love you...
