(Black sheep black sheep)  
This world holds many misteries that I don't  
understand  
One is why the wanderlust is born in the heart of a man  
I kissed young lips that thrilled me so and set my soul  
on fire  
I'm a black sheep boy and I just can't find the lips my  
heart desire  
Black sheep (black sheep) black sheep (black sheep)  
Why do I have to roam why can't I have a happy heart  
like other guys I've known

This wanderlust in my hungry heart keeps me on the  
road  
I'm a black sheep boy there's a lot more oats that we've  
gotta sow  
Black sheep (black sheep) black sheep (black sheep)  
I've known life I've tasted love from a girl that's true  
and sweet  
She haunts me in my dreams at night and I can hardly  
sleep  
I won her self fancy then but my wanderin' heart says  
no

Black sheep boy with lot more places we've gotta go  
Black sheep (black sheep)...

I can hear my mama say as she sits there all alone  
My black sheep boy is a coming back never more to  
roam  
Black sheep (black sheep)...  
Black sheep (black sheep) black sheep (black sheep)  
black sheep (black sheep)
