(Please don't hurt me anymore)
I've walked the streets of loneliness a long long time I
know
I've prayed to die a million times because you hurt me
so
I didn't think we'd love again the way we did before
please don't hurt me anymore
Please don't hurt me anymore don't make me go
through what I went through before
Don't make me wonder why I keep knocking on your
door
Please don't hurt me anymore
[dobro - steel]

Please don't hurt me...
Please don't hurt me anymore
