(Gary Shelton - Eugene Wadley)

How's your love life baby do you hear music playing
Does it surround you all the time like summer sunshine
You could feel like you want to you could do what you
want to
You've got the right to change your mind.

How's your love life baby is there a certain someone
Picking you up when you get down and feeling lonely
There's always another mountain so go ahead who's
countin'
You've got the right to change your mind.

Hello girl I'm talking to you
Love they say is just a state of mind
Stay a while and let me hold you
Maybe we can make the sun shine this time.

You've got one life baby so live it like you want to
You can be what you wanna be if you believe in
Do all the things you want do then you believe like I do
It's time to set your spirit free.

How's your love life baby?
How's your love life baby?...
