I COULD SING ALL NIGHT LONG

(Tommy Collins - Ferlin Husky)

© '66 Husky Music, BMI

I could sing sing sing all night I could sing sing sing all night

I could sing I could sing all night

I found a new love she's the true love sing I could sing all night

She said she'd love me true she would be sing I could sing all night

Well I could sing sing sing all night...

She's got money she's my honey sing I could sing all night

Drive in sport cars smoking big cigars sing I could sing all night

Well I could sing sing sing all night...

She's got a big house now I'm a rich louse sing I could sing all night

Huggin' and kissin' huntin' and fishin' sing I could sing all night

Well I could sing sing sing all night...

Mohair and short skins diamond rings and tiepins sing I could sing all night

No more of feedin' hogs we got swimmin' pools and puddle dogs

Sing I could sing all night

Let's all sing I could sing sing sing all night...

Everybody I could sing sing sing all night...
