The time has come once more for us to move on
So pack your things and let's be on our way
This is not the world I promised not this shack so cold
and grey
But I'll find it or keep on tryin' on my dyin' day
So I'll keep on tryin' for you my golden haired girl
For after all I promised you the world

You're the sweetest kind of a good girl you stop by me
You help me search for all my fancy dreams
But this place it looks no better than the last so we
won't stay
But I'll find it or keep on tryin' on my dyin' day

Yes I'll keep on tryin' for you...

At last in finer way we have made it a house the yacht
and toys and everything
And daddy loves you so much honey and you know
mama looked at you the same way
And I promised her I'll keep tryin' and daddy's gonna
keep tryin' until my dyin' day
Yes I'll keep on tryin' for you...
