Well I work hard on my job everyday love I come home
and I'm all tired out at night
You don't meet me with a kiss like you used to lately all
you wanna do is fight
Well honey something sure has changed you
completely
Since the day that I've walked you down the isle
Is it hard for you to see that you caught the change in
me
I'm so weak I'd walk a mile for a smile
Yes indeed I'd walk a mile for a tender lovin' smile
The kind of smile I used to get from you
Don't waste my time by lookin' hurt after treatin' me like
dirt
And don't blame me for what it's leadin' to
Everything about you's changed since the day I
changed your name

And before now cheatin's never been my style
But I'd be an easy victim for two wide open arms
I'm so weak I'd walk a mile for a smile
[harmonica]
Yes indeed I'd walk a mile...
It's a fact I'm so weak I'd walk a mile for a smile
