IT'S THE TALK OF THE TOWN

WRITERS JERRY LIVINGSTON, MARTY SYMES,AL J.

NEIBURG

I can't show my face can't go anyplace people stop and  
stare it's so hard to bear

Everybody knows you left me it's the talk of the town  
Everytime we meet my heart skips a beat we don't stop  
to speak know it's just a week

Everybody knows you left me uhm it's the talk of the  
town

We send our invitations to friends and relations  
advancing our wedding day

Friends and our relations gave congratulations how  
can you face that what can you say

Let's make up sweetheart we can't stay apart

Don't let foolish pride keep you from my side

How can love like ours be ended it's the talk of the town

We send our invitations to friends and relations  
advancing our wedding day

Friends and our relations gave congratulations how  
can you face that what can you say

Let's make up sweetheart we can't stay apart

Don't let foolish pride keep you from my side

How can love like ours be ended it's the talk of the town
