"I've Got A Woman's Love"

My home is the field where I work mighty hard
I stand in the shade of heaven's reward
I'm happy and free cause I've got a woman's love
She stands at my side through worry and care willing to
give and willing to share
I'm happy and free cause I've got a woman's love
There's bread on our table and rest in our bed
Plenty of courage to face what's ahead
She gives me contentment when my work is done gave
me a daughter gave me a son
My cotton is white there's gold in the grain I've got
nothing to lose plenty to gain

I'm happy and free cause I've got a woman's love
There's bread on our table...
I've got a woman's love
