(Jimmy Peppers)

You and your new love are gonna make it
And knowing this is tearing me apart
You offered me your love I wouldn't take it
Now I'm hurting all the way through my heart.

Look at me, you're looking at a fool
And the whole world could learn a lesson from me
If you want to know about lonely
Just ask me and learn from a fool.

--- Instrumental ---

Look at me, you're looking at a fool
And the whole world could learn a lesson from me
If you want to know about lonely
Just ask me and learn from a fool.

Just ask me and learn from a fool...
