There's a whole lot of talk about loving but let me tell
you how I feel
Loving may keep this old world turning but money
greases the wheels
I said the money greases the wheel

Well one time these two brothers were floatin' down the
river on a raft
One brother fell in the water the other brother ah he
just laughed
And said I'll save you for a dollar and a half
Well there's a whole lot of talk...

Well a long time ago this outlaw he robbed and killed
and stole
His girlfriend heard about a reward she went to the
sheriff and told
And got ten thousand dollars in gold
Well there's a whole lot of talk...

[steel]
Well one time in Las Vegas a gambler was shootin'
craps
He lost all his money and his baby but when he won his
money back
He got ten new babies on his lap
Well there's a whole lot of talk...
Well there's a whole lot of talk...
