(Terry Fell)

Never (no I will) never  
Ever grow tired of you  
Never (no I will) never  
Ever stop loving you.

And you will never have to cry  
'Cause I will never make you blue  
There will never be a cloud  
To keep the sun from shining through.

Never (no I will) never  
Ever stop loving you.

--- Instrumental ---

And you will never have to cry  
'Cause I will never make you blue  
There will never be a cloud  
To keep the sun from shining through.

Never (no I will) never  
Ever stop loving you...
