(Alex Zanetis)

Throw me a life line, I'm cought in the sea
A perfume and sweet talk, she's temptin' me
Somebody save me, I'm falling in love
With a beautiful angel that fell from above.

Throw me a life line, I'm caught in the sea
A perfume and sweet talk, she's temptin' me
Somebody help me, I'm tumblin' through space
And a million bright stars I see all picture her face.

A perfume and sweet talk, she's temptin' me
Somebody help me, I'm tumblin' through space
And a million bright stars I see all picture her face...
