(Ferlin Husky)

That big old moon up there  
Holds nothing for me  
But a lot of lonely nights  
And the blue memories.

It keeps on watching me  
Won't let me love again  
Reflects a cloud on me  
Makes my future look dim.

That big old moon up there  
Holds nothing for me  
But a lot of lonely nights  
And the blue memories.

--- Instrumental ---

That big old moon up there  
Holds nothing for me  
But a lot of lonely nights  
And the blue memories.

You may see a man up there  
I used to see one too  
I don't see that man no more  
I can only see you.

That big old moon up there  
Holds nothing for me  
But a lot of lonely nights  
And the blue memories...
