"You Should Live My Life"

Visit "[You Should Live My Life](#)" on MotoLyrics.com

I wish I could live long enough to see you've hurt like
me
It's not right but oh tonight I'm tired of misery
You should have to pay a little the way I've paid a lot
If you'd never know what torture ends then you should
live my life
Your coming should be just like mine nothing should be
left out
There'd be so much of happiness from inside your very
soul would shout
There would be no escape you couldn't run into the
night
If you think you know what torture ends then you should
live my life

If you think you've ever hurt like me then you should
live my life
