1,2,1,2,3,4

sit back by the corner  
in the backroom of the one  
the one i've been waiting  
right where i was at the table next to you

we'll laugh so excited  
and i'll try to think of something  
to sing such a pretty girl  
seeing you there for the first time again

if you find a crack in time  
come in we can just be friends this time

oh you think i'm in a rock band  
and i wonder if you're to smart for me

but we'll soon discover  
we're as crazy about each as can be

if you find a crack in time  
come in we can just be friends this time

oh this time we won't be stupid  
we'll get it right now  
because i need you  
so act like you don't know me  
and i'm seeing you there for the first time again  
yeah i'm seeing you there for the first time again  
i'm seeing you there for the first time again
