Bob Welch
"Justine"

Written by bob welch.
Well, she's made me dangerous
Think i'm gonna cause myself some pain
Because you said justine just a minute ago
Well, please don't say that name

And if this world is really crazy
Well, she has made me more insane
I don't really care if she lives or she dies
But please don't say that name

Chorus:
Justine
Really had me yearning
I never thought i'd ache like this
Well, justine wait a minute longer
Baby please don't go like this
Cause it's bad enough that i've got to contend with this
world
And ist evil ways
She had everything that I wanted but she had no
shame
So please don't say that name

And if this world is goin? crazy
Well, she has made me more insane
Although I don't really care if she lives or she dies
But please don't say that name

Repeat chorus
