Written by bob welch.

There's nothing in this world we can explain
That's why love's the most important thing
Someone to talk to in the night
And when the world is wrong
She'll try to make it right

Chorus:

Oh jenny won't you try to understand
Oh jenny I just want to be your man
Yeah, jenny, cause the world is cruel enough
If you're near or you're far
I see love in your heart
And you've got all the love that I want
I'm a stranger in this world
Sometimes I wonder who made the plans
That's why I want your love in my life
So I can be with you and forget the world outside

Repeat chorus

Oh jenny won't you try to understand

I'm a stranger in this world
Sometimes I wonder who made the plans

Oh jenny won't you try to understand
Don't cry, baby
