"Almost Kissed"

I waken to a morning mist
The sun burns through an almost kiss
Now gone away
Not surprised to find me lonely now
Parade of dreams stroll by and bow
Not meant to stay
I say hello there brittle and bone
For sure you must be my home
What's more I can always feel alone
With you

Oh it's true, you are a special one
Your very laugh makes my blood run
Where are we now?
Cemented in our city dreams
Ambition like a sifting screen
On an old farm plow
Ah, you know that some love to love
Some love to change
Some have to have their own free range
And some tear my heart all apart

But if loss is just a step behind
A dancing door
A circus mind
I leave my bed
And I stumble through my rituals
I fight my mind
My memory pulls
To things been said
Oh I admit that I
Hold to words
I hold them tight
I've known colder comfort
In the night
It's only time after all

As I waken to a morning mist
The sun burns through an almost kiss
Now gone away
Not surprised to find me lonely now

Parade of dreams stroll by and bow
Not meant to stay
But I say hello there brittle and bone
For sure you must be my home
What's more I can always feel alone
With you
