Can darkness be bright  
Turn gloom into light  
A day without rain  
Let go of the pain

Hearts are estranged  
Nothing but fear  
A moment is gone  
Clouds drifting near

When miracles start  
Some won't break through  
Can't hold it back  
Emotions are skewed

Can darkness be bright  
Turn gloom into light  
A day without rain  
Let go of the pain

Visions have clashed  
Silence is here  
Emptiness found  
So close, so near  
I walk along the miles  
Looking for signs  
Find some small hope  
A moment that shines

Can darkness be bright  
Turn gloom into light  
A day without rain  
Let go of the pain
