Hatred seeps through my skin  
False tears cover my face  
I'm dying here tonight  
Don't try to catch me as i fall

Deisnged by you ignoratn assholes  
Designed to be your perfect slave  
Forget what we have  
Forget what we said  
Forget what was done  
And what goes on in your head

Deny all the false accusations  
Ignore all the medi-fucking-a  
Forget the shit that you call life  
It's just another broken fucking home

It all strikes back  
In the end  
Whatever we had is gone  
In the end  
SO FUCK YOU!

Forget what we have  
Forget what we said  
Forget what was done  
And what goes on in your head
