I've been waiting
Living life in rewind
Like I'm frozen in time and place
And i'm fadin'
Falling further behind every step that I try to take

I've been hiding from the heat of the sun
Watching everyone come and go
Let some light in, 'cause I can't see a thing
And there's so much I need to know
I wanna know you better
I wanna take you for a ride
Go on a wide adventure
Not let a moment pass me by

Turn off the lights
Turn up the bass
I want it front and centre
Bring on the night
There's no time to waste
I wanna' live forever

Turn off the lights
Turn up the bass
I want it front and centre
Bring on the night
There's no time to waste
I wanna' live forever

Can you hear it?
Like the beat of your heart
An electrical spark inside
Love the feelin'
From the force of the sound
Lift you up off the ground tonight

I'm addicted, It's like a chemical high
Yeah I feel so alive right now**
Take picture, 'cause it's all gonna pass
This is too good to last
This is moving too fast to slow down

Turn off the lights
turn up the bass
I want it front and centre
Bring on the night
There's no time to waste
I wanna' live forever

Turn off the lights
Turn up the bass
I want it front and centre
Bring on the night
There's no time to waste
I wanna' live forever
