"Scribble Out The Lies"

We are told we will be the youth of tomorrow
There will never be such a horrid thing
We are the unpure we are the dead
Don't let any else prove you wrong

Scribble out the lies
Don't believe a word they say
Scribble out the lies
We are the dead

Now's your chance don't mess it up

The future and the present are both corrupt
The past is unchangable, ignorace is bliss
I'm just a lonely ghost uttering a truth
A truth that no one will ever hear
chorus

We are the dead, the future is too

We are the dead (x7)
