I can't jump buildings in a single bound
Or listen to music without any sound
I'll feel better when i run away
'Cause nothing here can make me stay

My parents left and i said goodbye
The days feel the same and so do I
I walk around almost everyday
looking for the signs to show me the way home

Why am I so upset?
What do I have to prove?
This can't carry on

I'm a stranger to you, yeah it has to be said
I'm a stranger to you, yeah i might end up dead
I'm a stranger to you, yeah im fading away

I fell asleep just the other day
I woke up then couldn't find my way
I feel lost and alone some more
It feels like i'm in some kind of war
Why am I so upset?
What do I have to prove?
This can't carry on

I'm a stranger to you, yeah it has to be said
I'm a stranger to you, yeah i might end up dead
I'm a stranger to you, yeah im fading away

You don't know who I am, You don't know who I am
You just don't know who I am, woa oh yeah!

I'm a stranger to you, yeah it has to be said
I'm a stranger to you, yeah i might end up dead
I'm a stranger to you, yeah im fading away

I'm a stranger to you, yeah it has to be said
I'm a stranger to you, yeah i might end up dead
I'm a stranger to you, yeah im fading away
