Dark brown hair and eyelash  
Reappear in a lash  
Now's the only time I know

Early morning's greatest deed  
What's forsaken, I do not need  
There is water, there is snow

Settling down door and room  
Keep it tidy, keep it like a home  
Now's the only time I know

Come here, sparrow watch my hand  
Black and blue seeds  
That is what my hand can  
Now's the only time I know

Do my hair, paint eyelash  
Reappear in a flash  
There is more I'd like to know

Nine-fifteen, then I'm done  
Quiet front seat, then drive around  
Through the water, through the snow
