Eyes black, big paws and
Its poison and
Its blood
And big fire, big burn
Into the ashes
And no return
Woo! (x4)

We took you right from
Your mother's home
Our temple, your tomb
Can be your pick
Not pawned
The poison is blood
Woo! (x4)

We've been calling
Black paw who's soaring

We go out in the morning
Down the trail
To somewhere

You are the sound that I hear
You are the sound that I hear
We're not standing
We are falling
Woo! (x4)
