Filligree and shadow
Carve across my mind blank
Filling up the canvas
Where my sailing ship sank

Lemon tears and sorrow
Curve among my hearts scar
Binding up the losses
Where my yesterdays are

Masquerade the past
Impersonate the real

And you never there
And you ever there
You singing there
You ringing there
You, you
Always you (always you)

Loneliness and hungry
See my crystal dream go
Someone's searching on now (?)
Showing me how little that I know

Masquerade the past
Impersonate the real

And you never there
And you ever there
You singing there
You ringing there
You, you
Always you (always you)
Always you!

(psychedelic outro)
"Always you" - repeated several times)
