"Unlock My Door"

Unlock my door, I'll be waiting
You'll find me alone in the chair
Don't touch the light, follow my music
Come in, come in, I'll be there

You'll find my key, there in the garden
In the statues hand
Don't try the first door, I'll explain later
Come in and you'll understand

I never asked but once
So come in for a while
I'll wait for you a moment
Then go
I'll remember your smile

Unlock my door, I'll be waiting
You'll find me alone in the chair
Don't touch the light, follow my music
Come in, come in, I'll be there
