I understand  
We need to have our own space  
Too many days  
I need to talk and you are not there  
When you are here  
Your mind is always somewhere else  
Calculating  
To satisfy yourself  
I need you to feel our love  
I'm busy with affection  
And I'm on fire with my heart  
Can't get over you, busy with affection  
Cause you're busy with ambition  
And you're going all alone  
What is wrong with you?  
Busy with ambition  
I'm busy with affection  
And I'm on fire with my heart  
Can't get over you, busy with affection  
Cause you're busy with ambition  
And you're going all alone  
What is wrong with you?  
Busy with ambition  
You're always  
Planning for the future  
When you move are  
Maybe you will regret it  
Live for the present time, for love is what we need  
Don't pass it up  
There's not much opportunity  
Let us enjoy our love  
I'm busy with affection  
And I'm on fire with my heart  
Can't get over you, busy with affection  
Cause you're busy with ambition  
And you're going all alone  
What is wrong with you?  
Busy with ambition  
I'm busy with affection  
And I'm on fire with my heart  
Can't get over you, busy with affection  
Cause you're busy with ambition

And you're going all alone  
What is wrong with you?  
Busy with ambition.  
Busy with affection  
Busy with the, busy with the, busy with the  
I'm busy with affection  
And I'm on fire with my heart  
Can't get over you, busy with affection  
Cause you're busy with ambition  
And you're going all alone  
What is wrong with you?  
Busy with ambition  
I'm busy with affection  
And I'm on fire with my heart  
Can't get over you, busy with affection  
Cause you're busy with ambition  
And you're going all alone  
What is wrong with you?  
Busy with ambition  
Busy with affection  
Busy with ambition  
I'm busy with affection  
And I'm on fire with my heart  
Can't get over you, busy with affection  
Cause you're busy with ambition  
And you're going all alone  
What is wrong with you?  
Busy with ambition  
I'm busy with affection  
And I'm on fire with my heart  
Can't get over you, busy with affection  
Cause you're busy with ambition  
And you're going all alone  
What is wrong with you?  
Busy with ambition
