Tell me: "is there something wrong?",
I don't know what it is,
but i'm hurting deep inside.

Don't say that, don't put that between us
any doubts you have, we can talk about it.

Look in my eyes, don't keep telling your little lies
will you open your heart and see
you will always feel safe beside me.

Lier, yes i know you well, it's so clear to me now
that your heart is changing .

Say it loud and clear, stay and face your fears
is something eating you up ,
because you really look upset.

Here in my heart, where we never will be apart
I know it right from the start ,
I will always be close beside you.

Baby, you're my bitter sugar
you are my sweet kiss
but you don't have wings my little devil.
I kiss you and...

Baby , you're my bitter sugar
your words bring me sorrow,
so don't pretend we can be friends
you're my bitter sugar.

I wish I was somewhere else
somewhere far away
cause it's so hard to move on.

If you found true love, found it in somebody's eyes,
don't you look for me now, cause I'm a survivor.

So tell me the truth, I don't really care if it hurts
you're the one who left and took my life,

you will always be the sound of my music.

Baby, you're my bitter sugar
you are my sweet kiss...

Baby, you're my bitter sugar
your words bring me sorrow...

Here in my heart, where we never will be apart.
I know it right from the start
I will always be close beside you.

Baby, you're my bitter sugar
you are my sweet kiss...

Baby, you're my bitter sugar
your words bring me sorrow...

...You're my bitter sugar
you are my sweet kiss...

Baby, you're my bitter sugar
your words bring me sorrow...
