Be Worth to say your name  
Because you may fall our stumble  
Even the strongest man  
Could be so weak and humble

Just gonna have her fun  
Her playing with your soul  
The sweetest beauty  
Will become your nightmare

Chorus  
She is a dream come true  
But she can turn into a world of danger  
She seduces you then will break you  
Because she is just a devil's  
angel

If like the way she walks  
Could be thunder and lightning  
The way she moves those hips  
Can be so hypnotizing

Is such a dangerous side  
There's no where you can hide  
The sweetest beauty  
Will become your nightmare

Chorus  
She is a dream come true  
But she can turn into a world of danger  
She seduces you then will break you  
Because she is just a devil's  
angel

Wish you have a girl just like her  
But you don't know what she is after  
When you find her  
That will be you fade

What would say to all the things  
you've heard?  
What would you say?  
How do you feel?

What would say to all the things  
you've heard?  
What if I tell you that she is me?

The sweetest beauty  
Will become your nightmare

Chorus

She is a dream come true  
But she can turn into a world of danger  
She seduces you then will break you  
Cause she is just a devil's  
angel

Wish you have a girl just like her  
But you don't know what she is after  
When you breathe, how you won't  
know that she is your little devil's  
angel?

She seduces you then will break you  
Cause she is just a devil's  
angel  
Wish you have a girl just like her  
But you don't know what she is after

When you find her  
That will be you fade
