Follow me down  
To the water's edge  
The sound of the ocean whispers your name  
The salt on your skin  
The sand in my hair  
Follow me down to the shore.  
Let's write our names in the sand so the waves  
Can wash away the trace of you and me  
Let ourselves fall to the ground  
The tide takes you out and brings  
You in and out in and out in and out and in again  
Follow me down, follow me down  
Sunshine and water the eyes see your face  
Follow me down into the blue  
I drop in the ocean  
Footsteps on the beach  
Follow me down to the sea  
Let's write our names in the sand so the waves  
Can wash away the trace of you and me  
Let ourselves fall to the ground  
The tide takes you out and brings  
You in and out in and out in and out and in again  
Follow me down, follow me down  
Let's write our names in the sand so the waves  
Can wash away the trace of you and me  
Let ourselves fall to the ground  
The tide takes you out and brings  
You in and out in and out in and out and in again  
Follow me down, follow me down  
Let's write our names in the sand so the waves  
Can wash away the trace of you and me  
Let ourselves fall to the ground  
The tide takes you out and brings  
You in and out in and out in and out and in again  
Follow me down, follow me down  
Let's write our names in the sand so the waves  
Can wash away the trace of you and me  
Follow me down.
