My inner voice  
Keeps pushing me  
To cross the bridge of destiny  
This small distance  
Is such a big step (for me to take)

I have this tender taste of time  
swim again for tight  
does anybody understand  
this feeling

I'm standing here on the edge  
with the feeling of letting go  
I feel like I'm falling down  
The power inside my heart  
Feels still the motion  
To get me on  
I'm standing here on the edge  
With the feeling of moving on  
I need to take control  
The searches they can't be wrong  
I'll take my chances  
I'm on my own  
Oh vertigo  
Oh vertigo

It's time for change  
and leave it all  
A different car go  
Pull the bridges off my past  
Disconnect the guilt inside

I love to feel the bidden sense  
I love to feel I fly  
Does anybody understand  
this feeling

I'm standing here on the edge  
with the feeling of letting go  
I feel like I'm falling down  
The power inside my heart

Feels still the motion  
To get me on  
I'm standing here on the edge  
With the feeling of moving on  
I need to take control  
The searches they can't be wrong  
I'll take my chances  
I'm on my own  
Oh vertigo  
Oh vertigo

I'm standing here on the edge  
with the feeling of letting go  
I feel like I'm falling down  
The power inside my heart  
Feels still the motion  
To get me on  
I'm standing here on the edge  
With the feeling of moving on  
I need to take control  
The searches they can't be wrong  
I'll take my chances  
I'm on my own  
Oh vertigo  
Oh my vertigo  
Oh vertigo  
Oh my vertigo  
Oh vertigo
