These are the dreams that we dream, these are the big  
and special things  
These are the days, come rain or shine - you and me  
and I feel fine

Cuz I can breathe when I'm standing here next to you  
it's always clear  
And I can breathe, and laugh, and sing if it makes you  
happy - then I'm happy too  
If it makes you beautiful, then I'm beautiful too

These are the walls that we climb, breaking the falls to  
the end of time  
These are the words the looks and touch and I never  
knew I could feel this much

Cuz I can breathe when I'm standing here next to you  
it's always clear  
And I can breathe, and laugh, and sing if it makes you  
happy - then I'm happy too  
If it makes you beautiful, then I'm beautiful too

This darkness of night can see there's a light  
I can reach out my hand - touch a soul, I understand  
If it makes you...I'm happy too. And if it makes you  
beautiful.
