Talk about love
Talk about emotion
Talk about the weather, well I feel under
Talk about a time
Talk about change, but it don't make me feel any better
Na na na na na
Sometimes baby it's hard to see
Blind to the love and to the honesty
Close our eyes, count to three
Picture love in a memory, yea
Take it tomorrow
Take it tomorrow, it'll be all right
Take it tomorrow
Take it tomorrow, it'll be all right, be all right
Days go by, shades of blue
Nights fall down on me and you
That's all right, this is all wrong
Maybe there's nothin' that we can do, but
Take it tomorrow
Take it tomorrow, it'll be all right
Take it tomorrow
Take it tomorrow it'll be allright, be all right
I'll be all right babe
Baby don't it feel like the rains gonna fall
Take away these tears
Ain't it funny when you take a look back
It'll feel like wasted years, na na na na na
Be all right
Days go by, shades of blue
Nights fall down on me and you
That's all right, this is all wrong
Maybe there's nothin' that we can do, but
Take it Tomorrow
Take it Tomorrow, it'll be all right
Take it Tomorrow
Take it Tomorrow, it'll be all right, be all right
It'll be all right babe, be all right, be all right, be all right
Take it Tomorrow, make it through the day (4 times)
