Hey there was something wild, about that girl  
You know I felt it when we touched  
We didn't say a word, I didn't know her name  
But still it meant so much

I knew it wasn't love, it didn't have to be  
She was there and I was there, that's all

Lonely is the night and when we broke a heart  
You know it's beatin' every day  
And when I think of her, I have to smile  
She helped to ease the pain

I knew it wasn't love, it didn't have to be  
She was there and I was there, that's all

And she took me far, far into the night  
She didn't let go 'til the morning light

We didn't say a word, I didn't know her name  
But that didn't cause to leave  
And when I think of her, I have to smile  
Because she helped to ease the pain, ooh, yea

And I knew it wasn't love but it didn't have to be  
Because she was there and I was there, that's all

That's all, that's all, that's all
