However long our feet have walked on this world
Weve all lived long enough to know
That sometimes life will go our way
And other times it wont
But still Ive got this joy inside of me
With each new dawn I do believe to
Say hey, it's a good day
Even if things aren't going my way
Jesus is Lord and I am saved
So, say hey, it's a good day
Circumstance and situations change
You know life can turn on a dime
But there's a constant hope and peace
That I have come to find
And it's all because of who God is
And that He is alive and I am His, so
Say hey, it's a good day
Even if things aren't going my way
Jesus is Lord and I am saved
So, say hey, it's a good day
~repeat 2x~
We are all as happy as we make our minds up to be
I have just decided that nothings gonna take this joy
from me
Say hey, it's a good day
Even if things aren't going my way
Jesus is Lord and I am saved
So, say hey, it's a good day
