I can feel it now
I can feel my heart again
I thought i lost myself
I can feel it caving in
You can keep your venom saints
Just give me back my girl
When the city's dark
With her melancholy chords
I can feel her hollow skin
It's thin as billboards
You can win the poison race
Just give me back my girl
You can have la
Just give me back my girl
I feel it creeping in
Breaking my heart again
I don't know who i've been
Feels like i'm losing it all
You can have los angeles
Just give me back my girl
Feel like i'll never be good enough
Feel like i'll never be cool enough sometimes
Oh, i remember that was never the point!
And i don't ever want to lose you, love
I just want to know what shattered on the inside, yeah
Feels like i'm losing her
Like we'll never be what we were
Ever since the bubble burst
Feels like we're in reverse, oh!
You can have los angeles
Just give me back my girl
You can keep your angels
Just give me back my girl
You shine brighter than the city, love
You shine brighter than the city, love
You shine brighter than the city, love
You shine brighter than the city, love
You're shining brighter than the city, love
You shine brighter than the city, love
You shine brighter than the city, love

It feels like i'm losing you
Like i've been torn in two
After all that we've been through
Is there nothing that i could do, oh?
You can have los angeles
Just give me back my girl
You can keep your angels
Just give me back my girl
You can have los angeles
Just give me back my girl
You can have the basin
Just give me back my girl
