It's a lie
if I lie right here

Girl this was your idea
you know it's not my fault
You say you want my love
well my love taste of salt
I've got a list of things I wanna do before
I think of someone else's sorrow

If there's a deeper meaning that you're trying to find
Well it's in your head
you'd better treat it kind
If you've done misread me
Well I'll make it clear tomorrow

Wish I could tell you I'm a better guy
That love is all around and only real men cry
But all I wanna do is jump your bones
Slamdance all night to the music of your moans

It's a lie
if I lie right here
It's a lie
if I lie right here

Underneath my face there is a human skull
Without the living flesh you'd find it pretty dull
Underneath my skull there is a think machine
that only loves itself
And in the best of worlds you are the same as me
You think of life and love and morals separately

You don't expect a promise to last longer than the
words themselves

Wish I could tell you I'm a better guy
That love is all around and only real men cry
But all I wanna do is jump your bones
Slamdance all night to the music of your moans

It's a lie

if I lie right here
It's a lie
if I lie right here

It's a lie
if I lie right here
It's a lie
if I lie right here

Wish I could tell you I'm a better guy
That love is all around and only real men cry
But all I wanna do is jump your bones
Slamdance all night to the music of your moans

It's a lie
(wish I could tell you I'm a better guy)
if I lie right here

It's a lie
(love is all around and only real men cry)
if I lie right here

It's a lie
(but all I wanna do is jump your bones)
if I lie right here

It's a lie
(slamdance all night to the music of your moans)
if I lie right here
