I feel alright
Just get out of my face
I feel alright
Just let me have my space
I feel alright I feel alright

I'll be alright
In one half of an hour
And in the silence
I will gather my power
It's not the moment
Don't have the patience
To explain myself, to you

It should be obvious
It should be obvious
It should be obvious

This is the wrong time
Just get out of my face
Don't need a long time
Just a moment of grace
I need alone time
I don't need to listen to your good advice, my friend

It should be obvious
It should be obvious
It should be obvious to you

That the silence gives me strength
That the silence gives me strength
That the silence gives me strength

I feel alright
Just get out of my face
I feel alright
Just let me have my space
I feel alright I feel alright

And there is silence
And you know that it means
That there's a violence

That is better unseen
Just let it die now
Don't stir it up and give it oxygen

It should be obvious
It should be obvious
It should be obvious to you
That the silence gives me strength
That the silence gives me strength
The silent, silent
Silent, silent strength
