

## Fiction Plane "Stay"

Visit "[Stay](#)" on [MotoLyrics.com](http://MotoLyrics.com)

So I'm thinking at the back of my mind  
That I'm leaving somebody behind  
And though I think I know I've gotta move on,  
I don't want anyone to feel alone

It would be easy if I knew what I wanted  
I hope maybe we could stay here for the summer  
Forget the future we could always be together  
Maybe we can hang around forever

There's no calling this an honest mistake  
It was always my decision to take  
Do I lie here while my dreams are getting old  
Or do I prove myself by hitting the road?

It would be easy if I knew what I wanted  
I hope maybe we could stay here for the summer  
Forget the future we could always be together  
Maybe we can hang around forever

Oooooo Oooooooooooh

Well there's no one gonna tell me I'm free  
Cus there's always 60 places to be  
Good old you, silly me  
I spent an age looking for thing you can't see

It would be easy if I knew what I wanted  
I hope maybe we could stay here for the summer  
Forget the future we could always be together  
Maybe we can hang around forever (X2)

Maybe we stay here for the summer  
Forget the future we can always be together  
Maybe we can hang around forever
