Yeah, yeah

Murder, death

As I search to analyze reality

The true meaning of life

Out simple existence means nothing

God has a gun, the truth, life is a slow noose

He's invincible

Better watch his knife

There is no escape from the slow kill

When it's time to go

God serves a death blow

You have no choice, don't even try

The only choice is suicide

Surviving the game

No escape

No one's ever escaped

Die
